

## Football Season

### General Instructions:

This Task has three Parts: Part 1 has three questions; Part 2 has two questions and parts 3 has one question.

Shyann loves football and enjoys comparing her two favourite players.

Below is a table showing each player overall performance during the 2015 to 2018 football season after playing all their matches

Players	Metres Ran	Total Passes	Goal Attempts
Mbappe	17, 257	781	650
Ronaldo	34, 744	919	341

Part 1

Examine the above carefully, then answer the questions below. Show your work.

1. How many more passes than goal attempts did Ronaldo have?

2. How many goal attempts altogether did both players have?

3. What is the total metres both players ran?

**Part 2**

Using the information in the introduction to help you, answer the following questions. Show how you arrive at your answer in the space provided.

4. IF each Mbappe played the same number of games and he played a total of 716 games. For each year, how many games did he play?

5. IF each Ronaldo played the same number of games and he played a total of 812 games. For each year, how many games did he play?

**Part 3**

During the first two seasons (2015-16 & 2016-17) of Ronaldo's tenure, he made 233 passes. If he made the same number of passes each year, estimate to find about how many passes he made each year in his first two seasons.
